

Inclusivity & Sacred Spaces

My practice is grounded in compassion and respect for the diversity of human experience. Across my range of services, the majority of offerings are open to all.

Some gatherings, such as Full Moon Women's Circles and women's retreats, are held as women-only spaces. These gatherings are always clearly advertised as women-only in advance.

This information is shared so people know what to expect and can understand which offerings are open to them. If you have questions about any of my offerings, you're very welcome to get in touch.
